Portable Speakers

– get ready for an ear-blasting experience!

You'll be amazed! Our newest speaker platform has been improved to ensure a best-in-class sound experience when hooked up to your GSM mobile phone, computer or other audio source. You'll have heard nothing like it!

Our "EARs by LIP" speaker platform offers HiFi-grade speakers in various sizes and designs at an affordable price. Small, Medium or Large? You decide whether you want a pocket-size room-filling sound experience, a desk stand for charging your mobile at the same time as you listen to your favorite songs, or a larger speaker system that will offer the highest quality sound throughout your home.

The secret is our advanced DSP technology and high quality speaker design, which offers a huge sound with surprisingly small speakers.

You can choose tailor made solutions for your customers' needs that are based on the best sound technology and wrap it in a design of your choice or select any of our great designs branded with your company logo.

Your range of products and applications can include

- Mobile phone desk stand with built-in charger
- Bluetooth® desktop speakers (playback from mobile phones, computer, other audio sources)
- PC multimedia speaker system
- iPod® speaker system

EARs by LIP design example

To demonstrate the features of EARs by LIP, we have a demo speaker system for you to enjoy and try out – hearing is believing!

As always with demo systems, the design is an example both from a technical and form factor point of view. This means that the following numbers can be adjusted to fit you and your customers' needs:

Features & Facts:

- Number of channels: 2 plus optional subwoofer
- Speaker size (Medium): 13 x 6,5 x 5,5 (H x W x D)
- Frequency range: 50 -100 Hz (depending on optional subwoofer) to 20 kHz
- Maximum RMS output power per channel = 18 W
- SNR > 89 dB
- THD + N at maximum output power = 10%
- 3.5 mm stereo input
- Buttons for adjusting volume, bass and treble
- DSP technology for optimizing the frequency response
- Class D amplifier for low power consumption

You may have seen portable speakers before – in fact, we know you have – but we're sure that you've heard nothing like this!

EARs by LIP – *great sound for ordinary people with an ear for quality.*
